

Please do not expand the LPFM stations to take priority over current FM translator service. This would effect K-LOVE, the only channel I ever listen to. It fills the airwaves with encouraging and positive words and thoughts. Not the case for most of the other local stations my kids listen to with DJs and song lyrics full of bad words, negative messages, or worthless words to fill their air time. I personally know many people that listen to K-LOVE in Midland and removing it would leave a void for contemporary Christian music, not just in Midland but all rural areas without the base to support such good programming alone, but with aid on a national level, we can manage to find enough K-LOVE supporters to broadcast in non-metropolitan areas. How many radio broadcasts are 100% positive, pro-Christian, pro-American ALL the time? All across America simultaneously. Their work literally saves lives physically and spiritually as well as uplifts people. I know of no other audio or video medium that does that. It seems like it would also be in the national interest of American security to national broadcast capability if the government needed mediums like K-LOVE in addition to TV to alert the American people of any problems. Thank you for considering my comments.
